# MyGlue

Simple. Smart. Secure.

Collaborate securely with KubeNet MyGlue

With MyGlue, not only can we securely share information with you, you can collaborate and share information as well, ultimately offering us more visibility into your IT environment. More visibility equals faster and better service.

Why KubeNet MyGlue?

- Say goodbye to sharing confidential information via email! Share passwords or instructions securely with KubeNet in MyGlue

- Collaborate effortlessly! We can share with you what we have documented about your network and you have the option to add and modify that information, giving us full and accurate visibility

- Stop wondering if you're looking at the latest version of a document, process, or procedure. Information stored in MyGlue is always live and up to date between you and KubeNet

- Airtight security: SOC 2 compliance, role-based permissions, audit trail, version history, two-factor authentication, and more
