

Securely preserve and share knowledge

Securely store, access and share information and documents within your organization. Rather than searching through multiple folders, or sift through thousands of emails, you can simply log in to a secured digital interface to access all of your documents and information with version history.

Why KubeNet MyGlue?

- · Document important company processes and procedures for easy and secured access
- Easily link together processes, passwords, and any other documentation to enjoy having all of your information only a click or two away
- Use the Chrome Extension to easily access any information stored in MyGlue without ever leaving the webpage you'are on
- Speed up business processes like onboarding using the Checklists feature
- Stop wondering who has the latest version of a document, process, or procedure. Information stored in MyGlue is always live and up-to-date
- Airtight security: SOC 2 compliance, role-based permissions, audit trail, version history, two-factor authentication and more
